EMPLOYMENT

Capital One	Dallas, TX
Associate Software Engineer Technology Development Program	August 2023 – Present

- o Designed and implemented features for internal full-stack applications, streamlining AWS Console management using Angular, Java, and Python.
- o Migrated databases from SQL Server to Aurora PostgreSQL in AWS, enhancing scalability and reducing costs.
- o Improved system reliability by automating workflows and supporting Site Reliability Engineering (SRE) initiatives for the Auto Finance Servicing division.
- o Collaborated with cross-functional teams to address production incidents, identifying root causes and implementing long-term solutions.

CODA Associate Capital One Developer Academy	February 2023 – August 2023
---	------------------------------------

- o Completed an intensive training program on full-stack development, focusing on JavaScript, Node.js, TypeScript, Python, and AWS.
- o Built and deployed multiple small scale full-stack applications, gaining hands-on experience in agile development workflows and code review processes.
- o Collaborated with Capital One Tech teams to deliver scalable solutions to their real world challenges.

Arthur J. Gallagher & Co.	Newport Beach, CA
Wholesale Brokerage Intern	June 2021 – August 2021

- o Contributed to structuring over \$20M in excess liability coverage for Fortune 500 clients, ensuring risk mitigation and compliance.
- o Finalist in the Gallagher Corporate Pitch Competition, ranking 2nd of 120 interns.
- o Conducted market analysis on excess casualty insurance and proposed innovative solutions to address market challenges.
- o Created a prototype shared document platform to streamline broker-client communication and improve deal flow efficiency.

ACTIVITIES AND ORGANIZATIONS

Haiti & Africa Relief Team	Jarabacoa, Dominican Republic
Medical Mission Trip Volunteer	June 2022

- o Assisted medical teams in providing care to over 1,000 Haitian refugees in underserved conditions.
- o **Good World NFT** - Minted NFTs on OpenSea to raise support for this Haitian community.

Spartan Blockchain Solutions	East Lansing, MI
Business Analyst	December 2021 – June 2022

- o Won the Spartan Blockchain Innovation Pitch Competition (Grand Prize, 2022).
- o Conducted research on innovative blockchain use cases, presenting findings to industry professionals and peers.
